# Chapter 3. Definitions

## 3.1. AccumulateClaimDTO

累计赔付实体

| Name   | Description | Schema          |
|--|-------------|-----------------|
| <b>breedClaimAmount</b><br><i>optional</i>     | 养殖险赔付金额     | number          |
| <b>breedClaimCaseCount</b><br><i>optional</i>  | 养殖险赔付案件数    | integer (int32) |
| <b>cropClaimAmount</b><br><i>optional</i>      | 种植险赔付金额     | number          |
| <b>cropClaimCaseCount</b><br><i>optional</i>   | 种植险赔付案件数    | integer (int32) |
| <b>forestClaimAmount</b><br><i>optional</i>    | 森林险赔付金额     | number          |
| <b>forestClaimCaseCount</b><br><i>optional</i> | 森林险赔付案件数    | integer (int32) |

## 3.2. AccumulateInsuredDTO

累计承保实体

| Name   | Description | Schema          |
|--|-------------|-----------------|
| <b>breedInsuredAmount</b><br><i>optional</i> | 养殖险承保金额     | number          |
| <b>breedInsuredCount</b><br><i>optional</i>  | 养殖险承保数      | integer (int32) |

| Name  | Description | Schema          |
|---|-------------|-----------------|
| <b>cropInsuredAmount</b><br><i>optional</i>   | 种植险承保金额     | number          |
| <b>cropInsuredCount</b><br><i>optional</i>    | 种植险承保数      | integer (int32) |
| <b>forestInsuredAmount</b><br><i>optional</i> | 森林险承保金额     | number          |
| <b>forestInsuredCount</b><br><i>optional</i>  | 森林险承保数      | integer (int32) |
| <b>insuredRatio</b><br><i>optional</i>        | 承保完成率       | number          |

### 3.3. AlarmDTO

预警数据

| Name                                  | Description    | Schema                        |
|---------------------------------------|----------------|-------------------------------|
| <b>alarmId</b><br><i>optional</i>     | 风险id           | string                        |
| <b>alarmStatus</b><br><i>optional</i> | 预警状态           | string                        |
| <b>alarmType</b><br><i>optional</i>   | alarmType风险类型  | string                        |
| <b>areaCode</b><br><i>optional</i>    | areaCode所在区域代码 | string                        |
| <b>boundary</b><br><i>optional</i>    | 区域边界           | <a href="#">JtsGeometry_6</a> |
| <b>content</b><br><i>optional</i>     | 内容             | string                        |
| <b>createTime</b><br><i>optional</i>  |                | string (date-time)            |

| Name   | Description         | Schema             |
|--|---------------------|--------------------|
| <b>id</b><br><i>optional</i>                 |                     | integer (int64)    |

| <b>lat</b><br><i>optional</i>                | 纬度                  | number (double)    |
| <b>lng</b><br><i>optional</i>                | 经度                  | number (double)    |
| <b>publishTime</b><br><i>optional</i>        | publishTime发布时间     | string (date-time) |
| <b>publishUnit</b><br><i>optional</i>        | publishUnit发布单位     | string             |
| <b>publishUnitId</b><br><i>optional</i>      | publishUnitId发布地区id | string             |
| <b>signalLevel</b><br><i>optional</i>        | signalLevel预警级别     | string             |
| <b>signalType</b><br><i>optional</i>         | signalType预警类型标识    | string             |
| <b>status</b><br><i>optional</i>             |                     | string             |
| <b>title</b><br><i>optional</i>              | 预警标题                | string             |
| <b>updateTime</b><br><i>optional</i>         |                     | string (date-time) |

### 3.4. AlarmMsgDTO

预警消息实体

| Name   | Description               | Schema |
|--|---------------------------|--------|
| <b>alarmCode</b><br><i>optional</i>          | 预警编码                      | string |
| <b>alarmStatus</b><br><i>optional</i>        | 预警状态(ALERT,UPDATE,CANCEL) | string |
| <b>areaCode</b><br><i>optional</i>           | 发布的区域code                 | string |
| <b>description</b><br><i>optional</i>        | 预警描述                      | string |
| <b>eventCode</b><br><i>optional</i>          | 预警事件code                  | string |
| <b>influenceAreaCodes</b><br><i>optional</i> | 影响区域                      | string |
| <b>level</b><br><i>optional</i>              | 预警等级                      | string |
| <b>publishTime</b><br><i>optional</i>        | 发布时间                      | string |
| <b>publishUnitCode</b><br><i>optional</i>    | 发布单位的code                 | string |
| <b>publishUnitName</b><br><i>optional</i>    | 发布单位的名称                   | string |
| <b>title</b><br><i>optional</i>              | 预警标题                      | string |

### 3.5. AllRatioDTO

统计赔付信息实体

| Name                          | Description | Schema          |
|-------------------------------|-------------|-----------------|
| <b>num</b><br><i>optional</i> | 赔付户数        | integer (int32) |

| Name                            | Description | Schema |
|---------------------------------|-------------|--------|
| <b>ratio</b><br><i>optional</i> | 赔付率         | number |

### 3.6. Area

地区表

| Name                                     | Description | Schema                        |
|--|-------------|-------------------------------|
| <b>acroutes</b><br><i>optional</i>       |             | string                        |
| <b>adCode</b><br><i>optional</i>         | 编码          | string                        |
| <b>boundary</b><br><i>optional</i>       | 边界          | <a href="#">JtsGeometry_5</a> |
| <b>center</b><br><i>optional</i>         | 中心点         | <a href="#">JtsGeometry_5</a> |
| <b>centroid</b><br><i>optional</i>       | 质心点         | <a href="#">JtsGeometry_5</a> |
| <b>childrenNumber</b><br><i>optional</i> |             | number (double)               |
| <b>createTime</b><br><i>optional</i>     |             | string (date-time)            |
| <b>id</b><br><i>optional</i>             |             | integer (int64)               |
| <b>latitude</b><br><i>optional</i>       | 纬度          | number (double)               |
| <b>level</b><br><i>optional</i>          |             | string                        |
| <b>longitude</b><br><i>optional</i>      | 经度          | number (double)               |

| Name                                      | Description | Schema             |
|---|-------------|--------------------|
| <b>name</b><br><i>optional</i>            |             | string             |
